

Courses & Certifications

Part 1

IBM – Data Privacy, Security, Governance, Risk and Compliance: Completed the IBM certification, covering data protection principles, regulatory compliance, risk management, and governance frameworks to support secure and compliant data practices. [Certificate](#)

IBM – ETL and Data Pipelines with Shell, Airflow and Kafka: Completed an advanced program in modern data architecture, designing scalable ETL/ELT data pipelines using Apache Airflow and Apache Kafka to enable reliable, with robust transformation, validation, and monitoring processes to enable reliable data-driven decision-making. [Certificate](#)

HackerRank – SQL (Advanced) Certificate: Passed the HackerRank skills certification test on SQL (Advanced) Certificate. [Advanced Certificate](#)

Stanford Online – Introduction to Statistics: Completed Stanford Online certification covering statistical thinking concepts, probability, data analysis, data interpretation, and hypothesis testing fundamental to analytics, data science, machine learning, and data-driven decision-making. [Certificate](#)

Imperial College London – Mathematics for Machine Learning: Linear Algebra: Completed Imperial College London certification covering linear algebra, vectors, matrices, linear transformations, projections, and eigenvalues to support data analysis and machine learning. [Certificate](#)

Imperial College London – Mathematics for Machine Learning: Multivariate Calculus: Completed Imperial College London certification covering multivariate calculus, gradient optimization, regression, and optimization techniques to support data analysis and machine learning. [Certificate](#)

IBM – Exploratory Data Analysis for Machine Learning: Completed IBM certification covering data retrieval, data cleaning, feature engineering, and data preparation techniques to support exploratory data analysis (EDA) and hypothesis testing. [Certificate](#)

IBM Data Science Professional Certificate: Completed most of the IBM Data Science Certifications, learned core data science skills and machine learning, demonstrated hands-on skills.

Some Highlight Certifications:

- **IBM – Machine Learning with Python (with Honors)** – [Certificate](#) | [Badge](#)
- **IBM – Databases and SQL for Data Science with Python (with Honors)** – [Certificate](#) | [Badge](#)
- **IBM – Data Analysis with Python** – [Certificate](#) | [Badge](#)
- **IBM – Python for Data Science, AI & Development** – [Certificate](#) | [Badge](#)
- **IBM – Data Science Methodology** – [Certificate](#) | [Badge](#)
- **IBM – Tools for Data Science** – [Certificate](#) | [Badge](#)
- **IBM – What is Data Science?** – [Certificate](#) | [Badge](#)

Perform Sentiment Analysis with scikit-learn: Completed certification covering sentiment analysis, text classification, logistic regression, and scikit-learn for predictive analytics and natural language processing (NLP). [Certificate](#)

AWS Innovate – Data and AI/ML Edition: Attended AWS Innovate Online Conference, building machine learning solution with AWS, such Amazon SageMaker, Amazon Polly, and more. [Certificate](#)

DeepLearning.AI – Supervised Machine Learning: Regression and Classification: Completed DeepLearning.AI certification covering supervised machine learning, linear regression, logistic regression, predictive modeling, and binary classification for data analysis and predictive analytics. [Certificate](#)

Google Data Analytics Professional Certificate: Obtained the Google Data Analytics Certificate. Demonstrated hands-on experience with core data analytics skills including: SQL, Tableau, Spreadsheets, and R. [Certificate](#)

Prepare, Clean, Transform, and Load Data using Power BI: Completed certification covering hands-on expertise in Power BI ETL processes, including data preparation, data cleaning, data transformation, and data loading using Power Query to create reliable, analysis-ready datasets. [Certificate](#)

Advanced Power BI: DAX Language, Formulas, and Calculations: Completed certification covering advanced Power BI, DAX, data modeling, advanced formulas, and complex calculations to support business intelligence and data-driven decision-making. [Certificate](#)

Business Intelligence for Consultants: Completed certification covering how BI empowers consultants to deliver data-driven strategies and real impact for clients. [Certificate](#)

International Institute of Business Analysis (IIBA®) – Generative AI for Business Analysts: Completed IIBA® certification covering Generative AI, business analysis, AI-assisted decision-making, analytical workflows, AI frameworks, and data-driven innovation to enhance business insights. [Certificate](#)

HackerRank – C# (Basic) Certificate: Passed the HackerRank skills certification test on C# Certificate. [Certificate](#)

HackerRank – SQL (Intermediate) and SQL (Basic) Certificate: Passed the HackerRank skills certification test on SQL (Intermediate) and SQL (Basic) Certificate. [Intermediate Certificate](#) | [Basic Certificate](#)

Microservices Foundations: Completed certification covering microservices architecture, modular application design, scalable systems, service independence, and distributed systems to support modern enterprise applications. [Certificate](#)

Prompt Engineering with ChatGPT: Completed certification covering prompt engineering, Generative AI, AI-assisted problem-solving, prompt optimization, and AI-driven decision-making to enhance analytical workflows and productivity. [Certificate](#)

Prompt Engineering: How to Talk to the AIs: Completed certification covering prompt engineering, Generative AI, prompt design, AI-assisted analysis, and AI-driven decision-making to enhance analytical workflows and business insights. [Certificate](#)

Introduction to Prompt Engineering for Generative AI: Completed certification covering how to effectively design and optimize prompts to unlock the full potential of generative AI — a crucial skill in today's data-driven and AI-powered world. [Certificate](#)

Lean Six Sigma: Analyze, Improve, and Control Tools: Completed certification covering process analysis, root cause identification, and continuous improvement using Lean Six Sigma methodologies. [Certificate](#)

Lean Six Sigma: Define and Measure Tools: Completed certification covering Lean Six Sigma, problem definition, process mapping, data measurement, process performance, and DMAIC methodologies to support process improvement and operational excellence. [Certificate](#)

Lean Six Sigma Foundations: Completed certification covering Lean Six Sigma principles, process improvement, operational excellence, continuous improvement, quality management, and data-driven decision-making. [Certificate](#)

Project Experience

Job Simulation

PwC US - Technology Consulting Job Simulation

[Certificate](#)

- Completed a PwC Technology Consulting job simulation by creating client discovery interview guides, developing user stories from business requirements, building an MVP roadmap for a compliance system upgrade, and delivering an executive-level summary presentation.
- Skills: Business Analysis, Critical Thinking, Strategic Planning, Technical Writing, User Story Development.

Deloitte Australia – Technology Job Simulation

[Certificate](#)

- Completed a Deloitte job simulation focusing on development, coding, and drafting a dashboard proposal for business insights.
- Skills: Data Structures, Python Programming, Planning, Formal Communication.

Deloitte Australia – Data Analytics Job Simulation

[Certificate](#)

- Completed a Deloitte job simulation involving data analysis and forensic technology.
- Created a data dashboard using Tableau and used Excel to classify data and draw business conclusions.
- Skills: Data Modeling, Data Analysis, Data Visualization.

Project Experience

Job Simulation

Boston Consulting Group (BCG) – Strategy Consulting Job Simulation

[Certificate](#)

- Completed a job simulation where I advised a hypothetical local telco company, Company X, facing a decline in profits.
- Skills: Financial Modeling, Financial Analysis, Market Research.

Boston Consulting Group (BCG) – Introduction to Strategy Consulting

[Certificate](#)

- Used effective brainstorm strategies to generate ideas to help a fictional luxury clothing company increase sales revenue.
- Skills: Brainstorming, Creativity, Critical Thinking.

Accenture – Data Analytics and Visualization Virtual Experience

[Certificate](#)

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture.
- Skills: Data Analysis, Data Modeling, Data Visualization.
