

1. **IBM – Data Privacy, Security, Governance, Risk and Compliance:** Completed IBM certification covering data privacy, data security, data governance, risk management, regulatory compliance, data protection, and governance frameworks to support secure, compliant, and trusted data practices. [Certificate](#)
2. **IBM – ETL and Data Pipelines with Shell, Airflow and Kafka:** Completed an advanced program in modern data architecture, designing scalable ETL/ELT data pipelines using Apache Airflow and Apache Kafka to enable reliable, with robust transformation, validation, and monitoring processes to enable reliable data-driven decision-making. [Certificate](#)
3. **HackerRank – SQL (Advanced) Certificate:** Verified advanced SQL proficiency, including complex queries, joins, subqueries, common table expressions (CTEs), window functions, query optimization, and relational database concepts through HackerRank's skills assessment. [Advanced Certificate](#)
4. **Advanced Power BI: DAX Language, Formulas, and Calculations:** Completed certification covering advanced Power BI, DAX, data modeling, advanced formulas, and complex calculations to support business intelligence and data-driven decision-making. [Certificate](#)
5. **Business Intelligence for Consultants:** Completed certification covering how BI empowers consultants to deliver data-driven strategies and real impact for clients. [Certificate](#)
6. **International Institute of Business Analysis (IIBA®) – Generative AI for Business Analysts:** Completed IIBA® certification covering Generative AI, business analysis, AI-assisted decision-making, analytical workflows, AI frameworks, and data-driven innovation to enhance business insights. [Certificate](#)
7. **Stanford Online – Introduction to Statistics:** Completed Stanford Online certification covering statistical thinking concepts, probability, data analysis, data interpretation, and hypothesis testing fundamental to analytics, data science, machine learning, and data-driven decision-making. [Certificate](#)
8. **Imperial College London – Mathematics for Machine Learning: Linear Algebra:** Completed Imperial College London certification covering linear algebra, vectors, matrices, linear transformations, projections, and eigenvalues to support data analysis and machine learning. [Certificate](#)
9. **Imperial College London – Mathematics for Machine Learning: Multivariate Calculus:** Completed Imperial College London certification covering multivariate calculus, gradient optimization, regression, and optimization techniques to support data analysis and machine learning. [Certificate](#)

10. **IBM – Exploratory Data Analysis for Machine Learning:** Completed IBM certification covering data retrieval, data cleaning, feature engineering, and data preparation techniques to support exploratory data analysis (EDA) and hypothesis testing. [Certificate](#)
- **IBM Data Science Professional Certificate:** Completed coursework covering data science, Python, SQL, data analysis, data visualization, machine learning, and data preparation through the IBM Data Science Professional Certificate program.
Some Highlight Certifications:
 11. **IBM – Machine Learning with Python (with Honors)** – Completed IBM certification covering machine learning, Python, supervised and unsupervised learning, predictive modeling, model evaluation, and scikit-learn. [Certificate](#) | [Badge](#)
 12. **IBM – Databases and SQL for Data Science with Python (with Honors)** – Completed IBM certification covering SQL, relational databases, database design, data retrieval, data analysis, and Python for data-driven applications. [Certificate](#) | [Badge](#)
 13. **IBM – Data Analysis with Python** – Completed IBM certification covering Python, data analysis, data manipulation, exploratory data analysis (EDA), data visualization, and statistical analysis. [Certificate](#) | [Badge](#)
 14. **IBM – Python for Data Science, AI & Development** – Completed IBM certification covering Python programming, data structures, data analysis, automation, scripting, and application development for data-driven solutions. [Certificate](#) | [Badge](#)
 15. **IBM – Data Science Methodology** – Completed IBM certification covering data science methodology, problem-solving, analytical thinking, data collection, data analysis, and model evaluation for data-driven decision-making. [Certificate](#) | [Badge](#)
 16. **IBM – Tools for Data Science** – Completed IBM certification covering Jupyter Notebook, Git, GitHub, Python, R, and open-source data science tools for data analysis and collaborative development. [Certificate](#) | [Badge](#)
 17. **IBM – What is Data Science?** – Completed IBM certification covering data science fundamentals, data analytics, data-driven decision-making, business problem-solving, and the data science lifecycle. [Certificate](#) | [Badge](#)
18. **DeepLearning.AI – Supervised Machine Learning: Regression and Classification:** Completed DeepLearning.AI certification covering supervised machine learning, linear regression, logistic regression, predictive modeling, and binary classification for data analysis and predictive analytics. [Certificate](#)

19. **Perform Sentiment Analysis with scikit-learn:** Completed certification covering sentiment analysis, text classification, logistic regression, and scikit-learn for predictive analytics and natural language processing (NLP). [Certificate](#)
20. **AWS Innovate – Data and AI/ML Edition:** Attended AWS Innovate Online Conference, building machine learning solution with AWS, such Amazon SageMaker, Amazon Polly, and more. [Certificate](#)
21. **Google Data Analytics Professional Certificate:** Obtained the Google Data Analytics Certificate. Demonstrated hands-on experience with core data analytics skills including: SQL, Tableau, Spreadsheets, and R. [Certificate](#)
22. **Prepare, Clean, Transform, and Load Data using Power BI:** Completed certification covering hands-on expertise in Power BI ETL processes, including data preparation, data cleaning, data transformation, and data loading using Power Query to create reliable, analysis-ready datasets. [Certificate](#)
23. **HackerRank – SQL (Intermediate) and SQL (Basic) Certificate:** Verified SQL proficiency, including data retrieval, filtering, joins, aggregations, subqueries, and common table expressions (CTEs) through HackerRank's skills assessment. [Intermediate Certificate](#) | [Basic Certificate](#)
24. **HackerRank – Python (Basic) Certificate:** Verified Python programming proficiency, including data types, control flow, functions, data structures, and problem-solving through HackerRank's skills assessment. [Certificate](#)
25. **HackerRank – C# (Basic) Certificate:** Verified C# programming proficiency, including object-oriented programming (OOP), control flow, data structures, functions, and problem-solving through HackerRank's skills assessment. [Certificate](#)
26. **Prompt Engineering with ChatGPT:** Completed certification covering prompt engineering, Generative AI, AI-assisted problem-solving, prompt optimization, and AI-driven decision-making to enhance analytical workflows and productivity. [Certificate](#)
27. **Prompt Engineering: How to Talk to the AIs:** Completed certification covering prompt engineering, Generative AI, prompt design, AI-assisted analysis and AI-driven decision-making to enhance analytical workflows and business insights. [Certificate](#)
28. **Introduction to Prompt Engineering for Generative AI:** Completed certification covering how to effectively design and optimize prompts to unlock the full potential of generative AI — a crucial skill in today's data-driven and AI-powered world. [Certificate](#)

- 29. **Microservices Foundations:** Completed certification covering microservices architecture, modular application design, scalable systems, service independence, and distributed systems to support modern enterprise applications. [Certificate](#)
- 30. **Lean Six Sigma: Analyze, Improve, and Control Tools:** Completed certification covering process analysis, root cause identification, and continuous improvement using Lean Six Sigma methodologies. [Certificate](#)
- 31. **Lean Six Sigma: Define and Measure Tools:** Completed certification covering Lean Six Sigma, problem definition, process mapping, data measurement, process performance, and DMAIC methodologies to support process improvement and operational excellence. [Certificate](#)
- 32. **Lean Six Sigma Foundations:** Completed certification covering Lean Six Sigma principles, process improvement, operational excellence, continuous improvement, quality management, and data-driven decision-making. [Certificate](#)

Project Experience

Job Simulation

PwC US - Technology Consulting Job Simulation

[Certificate](#)

- Completed a PwC Technology Consulting job simulation by creating client discovery interview guides, developing user stories from business requirements, building an MVP roadmap for a compliance system upgrade, and delivering an executive-level summary presentation.
- Skills: Business Analysis, Critical Thinking, Strategic Planning, Technical Writing, User Story Development.

Deloitte Australia – Technology Job Simulation

[Certificate](#)

- Completed a Deloitte job simulation focusing on development, coding, and drafting a dashboard proposal for business insights.
- Skills: Data Structures, Python Programming, Planning, Formal Communication.

Deloitte Australia – Data Analytics Job Simulation

[Certificate](#)

- Completed a Deloitte job simulation involving data analysis and forensic technology.
- Created a data dashboard using Tableau and used Excel to classify data and draw business conclusions.
- Skills: Data Modeling, Data Analysis, Data Visualization.

Project Experience

Job Simulation

Boston Consulting Group (BCG) – Strategy Consulting Job Simulation

[Certificate](#)

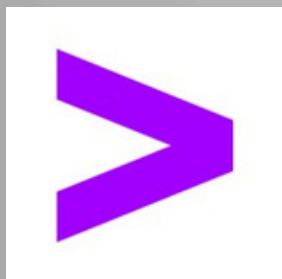

- Completed a BCG job simulation where I advised a hypothetical local telco company, Company X, facing a decline in profits.
- Skills: Financial Modeling, Financial Analysis, Market Research.

Boston Consulting Group (BCG) – Introduction to Strategy Consulting

[Certificate](#)

- Completed a BCG job simulation where I used effective brainstorm strategies to generate ideas to help a fictional luxury clothing company increase sales revenue.
- Skills: Brainstorming, Creativity, Critical Thinking.

Accenture – Data Analytics and Visualization Virtual Experience

[Certificate](#)

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture.
- Skills: Data Analysis, Data Modeling, Data Visualization.
